

HANG JIANG

Studio 6, 47 Olmsted Road, Apt 148, Palo Alto, CA 94305
(470)-270-7700; hjian42@stanford.edu
Homepage: <https://hjian42.github.io/>

OBJECTIVE	I am actively applying for PhD programs in natural language processing, computational linguistics, and computational social science for Fall 2020.		
EDUCATION	Stanford University, Palo Alto, CA	Sept. 2018 - Exp. Jun. 2020	
	M.S. in Symbolic Systems, focus on <i>AI</i> and <i>NLP</i> Advisor: Michael C. Frank		
	Emory University, Atlanta, GA	Aug. 2014 - May. 2018	
	B.S. in Computer Science and B.A. in Linguistics, <i>Summa Cum Laude</i> Advisor: Jinho D. Choi		
	Thesis: Automatic Personality Prediction with Attention-based Neural Networks		
RESEARCH INTEREST	<ul style="list-style-type: none">• Natural Language Processing, Computational Linguistics, Machine Learning• Computational Social Science, Computational Cognitive Science• Language Variation and Change, Social Reasoning, Language Acquisition• Machine Learning for Education and Sustainable Development		
COURSES	Stanford University	<ul style="list-style-type: none">• AI: Natural Language Processing in Deep Learning (Chris Manning), Information Retrieval (Chris Manning), Natural Language Understanding (Chris Potts), Programming for Linguists (Chris Potts), Artificial Intelligence (Percy Liang), From Languages to Information (Dan Jurafsky), Applied Machine Learning (Andrew Ng), Decision Making Under Uncertainty (Mykel Kochenderfer)• CS: Data Management and Data Systems, Object Oriented System Design, Programming Abstractions in C++	
	Emory University	<ul style="list-style-type: none">• CS, Math: Object-Oriented Programming in Java, Data Structure and Algorithms, Database Systems, Computational Linguistics, Data Mining, System Programming, Theory of Computing, Computer Networks, Discrete Structures, Linear Algebra, Optimization Theory, Statistics Inference, Foundations of Math, Big/Small Data & Visualization• Linguistics, Psychology, Philosophy: Language Mind and Society, Semantics and Pragmatics, Phonetics and Phonology, Syntax and Morphology, Brain and Language, History of the American Languages, Foundations of Linguistics, Cognition, Logic, Psychology I & II	
PUBLICATIONS (* = Equal Contribution)	Jiang, Hang; Xianzhe Zhang; and Jinho D. Choi. 2019. Automatic Text-based Personality Recognition on Monologues and Multiparty Dialogues Using Attentive Networks and Contextual Embeddings. In <i>Proceedings of the 34th AAAI Conference on Artificial Intelligence: Student Abstract and Poster Program, of AAAI:SAP'19. New York, USA</i> . [paper, github, data] (Under Review)		

Jiang, Hang*; Haoshen Hong*; Yuxing Chen*; and Vivek Kulkarni. 2019. Dialect-Gram: Automatic Detection of Dialectal Changes with Multi-geographic Resolution Analysis. To appear in *Proceedings of the Society for Computation in Linguistics. New Orleans: Linguistic Society of America*. **Oral Presentation**. [[paper](#), [github](#), [data](#)]

Jiang, Hang; and Jinho D. Choi. 2018. Automatic Personality Prediction with Attention-based Neural Networks. *Electronic Theses and Dissertations*, Emory University, Atlanta, GA. **Highest Honors**. [[paper](#), [github](#)]

TALKS & PRESENTATIONS

Jiang, Hang; and Roberto Franzosi. 2018. Shape of Stories. *Emory SIAM Student Chapter Event "Bridging the Gap: Math across Emory"*, Atlanta, GA. [[slides](#)]

Jiang, Hang; Doris Zhou; Alec Wolyniec; and Roberto Franzosi. 2017. Automatic Extraction of Actors and Actions from News Stories of Lynching. *Mini-Conference: Lynching in Historical Perspective*, Atlanta, GA. [[slides](#)]

Zhou, Doris; **Hang Jiang**; and Roberto Franzosi. 2017. He, She, They... Who Are They? Automatic and Semi-Automatic Anaphora Resolution. *Mini-Conference: Lynching in Historical Perspective*, Atlanta, GA. [[slides](#)]

Xiao, Catherine; **Hang Jiang**; and Jinho D. Choi. 2017. Seq2seq Model to Tokenize the Chinese Language. *Emory Undergraduate Research Symposium in Fall*, Atlanta, GA. [[poster](#)]

Jiang, Hang; and Jinho D. Choi. 2016. Chinese Grammar vs English Grammar in Universal Dependency. *Emory Undergraduate Research Symposium in Spring*, Atlanta, GA. [[poster](#)]

INDUSTRY EXPERIENCE

Apple Inc., Cupertino, California Jun. 2019 - Sept. 2019
Machine Learning Applied to Natural Language Processing Intern
Supervisors: Bing Zhao, Vivek Kumar Rangarajan Sridhar

- Worked on sentence embeddings, applied in text summarization and smart reply
- Contributed to internal NLP framework, supporting Apple Core ML

Educational Testing Service (ETS), Princeton, NJ Jun. 2018 - Aug. 2018
Natural Language Processing Intern

Supervisors: Martin Chodorow, Nitin Madnani, Aoife Cahill

- Built a new automatic *preposition error detection* system for *E-rater*
- Improved recall by **10%** to help ETS in grading GRE and TOEFL essays

RESEARCH EXPERIENCE

Stanford Language and Cognition Lab Mar. 2019 - Exp. Jun. 2020
Research Assistant Supervisors: Abdellah Fourtassi, Vivek Kulkarni, Michael C. Frank

- Built semantic networks with word embeddings to simulate vocabulary learning
- Used diachronic word embeddings to study first language acquisition
- Working on a paper towards *Association of Computational Linguistics 2020*

Stanford University Jan. 2019 - Exp. Jan. 2020
Independent Research

- Published *DialectGram: Automatic Detection of Dialectal Changes with Multi-geographic Resolution Analysis* with Vivek Kulkarni (Stanford NLP Lab) at Society for Computation in Linguistics (SCiL 2020)
- Working on a project on automatic earthquake detection with Weiqiang Zhu (Geophysics Lab) and Kai Sheng Tai (Stanford Future Data Systems Group)

Honors Thesis Program, Emory NLP Lab

Sept. 2017 - May. 2018

Research Assistant Supervisor: Jinho D. Choi

Committee Members: Marjorie Pak, Roberto Franzosi, Shun Yan Cheung

- Constructed FriendsPersona, the first dialogue dataset for automatic personality recognition from Friends TV show transcripts with Amazon's Mechanical Turk
- Improved state-of-art performance on Essays dataset with attentive networks and contextual embeddings and established a strong benchmark on FriendsPersona
- Won *highest honors* and submitted a paper to AAAI-20 Student Abstract and Poster Program

Emory PC-ACE Lab

Jan. 2017 - May. 2018

Research Assistant Supervisor: Roberto Franzosi

- Led the development of Emory Program for Computer-Assisted Coding of Events (PC-ACE) key components including automatic subject-verb-object (SVO) extraction, sentiment analysis, co-reference resolution, document clustering, and data visualization for narrative analysis (*Java, Python*)
- Assisted students in *LING 446W: Big/Small Data and Visualization* to use PC-ACE software for research in computational social science (*NLTK, Scikit-Learn, Scipy, Stanford CoreNLP*)

Carnegie Mellon University

Jun. 2017 - Aug. 2017

Summer Research Intern Supervisor: Brian MacWhinney

- Built and optimized automatic speech recognition (ASR) models based on *Bidirectional LSTM* to recognize speech from Aphasia patients
- Developed an intelligent English tutor *Funetics* in *Nodejs, Express, MongoDB* and *jQuery* to grade speech and provide customized feedback

Georgia Institute of Technology

Mar. 2017 - May. 2017

Research Assistant Supervisor: Annamaria Conti

- Implemented *Latent Semantic Analysis (LSA)* and *Latent Dirichlet Allocation (LDA)* to find patent-paper pairs on a large biomedical dataset
- Identified 688 high-quality patent-paper pairs and was acknowledged for model implementation

Summer Research Program, Emory NLP Lab

Jun. 2016 - Sept. 2016

Summer Research Intern Supervisor: Jinho D. Choi

- Built a Seq2Seq-based *Chinese Word Segmentation* model on Chinese TreeBank 7.0 in *Tensorflow*; Presented the work at Emory Fall Symposium

PROJECTS

- Ensemble BERT with Data Augmentation and Linguistic Knowledge on SQuAD 2.0, CS224N Deep Learning for Natural Language Processing, 2019, Christopher Manning. **Ranked #1 on the leaderboard and won the best poster award for the default project division (1 out of 98 teams)** [[report](#), [poster](#), [twitter](#)]
- Improving Sentiment Analysis with Data Augmentation, CS229A Applied Machine Learning, Younes Bensouda Mourri, Andrew Ng, 2019, [[report](#), [poster](#)]

EXTRA-CURRICULAR ACTIVITIES	Activity Manager, Chinese Entrepreneurship Organization (CEO)	2018-2020
	Member, Symbolic Systems Society at Stanford	2018-2020
	Member, Association of Chinese Students and Scholars at Stanford	2018-2020
	Vice President in Public Management, Emory Linguistics Circle	2017
	Campus Leader, Emory Bread House	2016-2017
	Member, Structured Independent Language Study (SILS) Program	2016-2017
	Vice President in Management, Sino-Emory Newsletter	2017
	Editor, Sino-Emory Newsletter	2016
	Member, Artisan Guild at Emory	2016
HONORS	Best Poster , CS224n NLP with Deep Learning Final Project (Chris Manning)	2019
	Highest Honors , Honors Thesis Program in Linguistics at Emory University	2018
	2nd Place , CS378 Data Mining Algorithm Competition at Emory University	2017
	Phi Sigma Iota Honor Society , International Foreign Language Studies	2017
	Dean List , Emory College of Arts & Sciences	2017
	Research Fellowship , Scholarly Inquiry and Research at Emory Program	2016
	Research Fellowship , Scholarly Inquiry and Research at Emory Program	2015
TEACHING	Teaching Assistant:	
	CS 145 Data Management and Data Systems, Stanford University (Autumn 2019) Instructor: Shiva Shivakumar	
SKILLS	Programming Languages:	
	Python, C/C++, Java, SQL, R, Javascript, Swift, HTML/CSS, M68000 Assembly	
	Frameworks & Tools:	
	Tensorflow, PyTorch, Android, iOS, JQuery, Git, LaTeX	
	Natural Languages:	
	Mandarin Chinese (native), English (fluent), Portuguese (intermediate), Spanish (intermediate), American Sign Language (beginner), Korean (beginner), Vietnamese (beginner)	
	Certificates:	
	Natural Language Processing Nanodegree (Udacity), Deep Learning Specialization (Coursera)
